Kenyalang Integrity Services Sdn. Bhd. (KENYALANG) is part of **PETRONAS VENDOR DEVELOPMENT PROGRAM (VDPx)** from 2022 – 2025 in **INDUSTRIAL HYGIENE (IH)** and **MERCURY HANDLING**. PETRONAS VDPx focuses on nurturing Bumiputera vendors to be resilient and sustainable to achieve the following objectives: Technically competent as part of its initiative to boost the capabilities of local companies in Malaysia's oil and gas industry.

Industrial Hygiene

Mercury Handling

Decontamination Services is intended process in removing the contaminant that possibly accumulated on equipment, tools, and/or personnel whichever requested by CLIENT.

PERSONNEL

Refers to employees and contractors, including the decontamination personnel that are working in contaminated areas.

TOOLS

Refers to the apparatus brought to the site to support the task, for instance spanner, hammer, bucket, crane, etc.

EQUIPMENT

Refers to the process set-up in plant areas such as aluminium heat exchangers, pipes, pig receiver, mercury removal units, compressors, flanges, bolt/nuts, etc.

Mercury Monitoring at Malaysia LNG, Bintulu

Service Range

On-site scheduled waste management services

Packaging services for scheduled waste

Decanting services of scheduled waste from tank to appropriate containers

Disposal service of scheduled waste to disposal center

Recycle/recovery service to approved recycle/recovery center

3+1 Contract with Hibiscus Petroleum in Labuan Crude Oil Terminal

KENYALANG offer the Industrial Hygiene (IH) services in covering all industries that require this scope in accordance to requirement as stipulated in OSHA 1994. IH scope are protecting the health and safety of workers in industrial and commercial settings. This involves anticipating, recognizing, evaluating, and recommending solutions to risks.

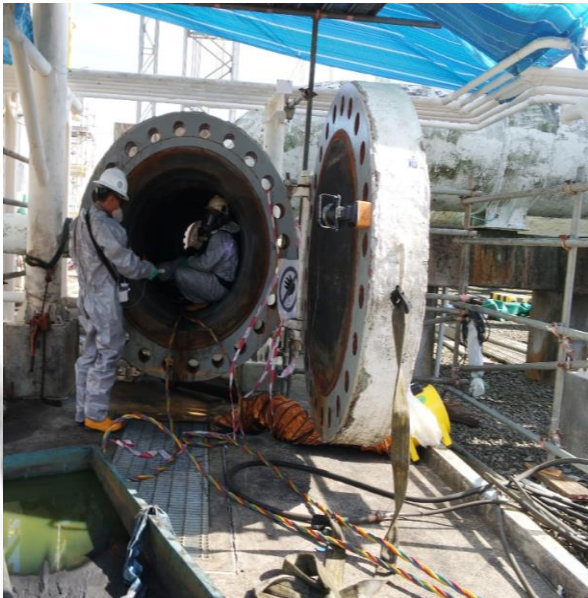

SERVICE RANGE

1. Chemical Health Risk Assessment (CHRA)
2. Chemical Exposure Monitoring
3. Noise Monitoring
4. Engineering Control Equipment Inspection & Testing
5. Heat Stress Monitoring
6. Ergonomic Risk Assessment & Training
7. Mercury Awareness Training
8. Noise Awareness Training
9. Safe Handling of Chemical Training

CEM Performed at Miri Crude Oil Terminal

KENYALANG committed with inspection and monitoring of chemical that is highly required in any workplace or confined area to ensure the level of risk exposure is monitored within its limit and the risk is minimize as low as practicable. Safe work environment is an aspect required at most processing area in line with ICOP 2010 and Malaysia OSHA 1994.

ALFA LAVAL HEAT EXCHANGER

KENYALANG has been appointed as an authorized distributor of **Alfa Laval's** heat exchanger in East Malaysia to supply **Gasketed Plate Heat Exchanger(GHPHE)**. Alfa Laval is a Swedish company.

Industrial Range: General Manufacturing plants, Utilities Plants, Cement Plants, Metalworking and Refrigeration.

- ✓ Highest thermal efficiency and close temperature approach
- ✓ Compact units - space saving, easy to service and maintain
- ✓ Maximum uptime - less fouling, stress, wear and corrosion
- ✓ Flexible - easy to adapt to changed duty requirements

MECHANICAL VALVE

KENYALANG has been appointed as an authorized distributor of **AJ** 's Valve in East Malaysia.

AJ Valve embarked on a new mission to be one of the leading ball valve manufacturers producing API 6D pipeline ball valves in Malaysia. AJSB has obtained the license to manufacture API 6D pipeline ball valves in 2010 from the American Petroleum Institute (API) certification body with license no. API 0900 Certification.

Our Valves on capabilities include:
Ball Valves Up to 42"

- Soft seat or metal seat
- Floating or Trunnion design
- Reduce or Full bore
- CL150 up to CL 2500

MECHANICAL PUMP - EYKA

KENYALANG has been appointed as an authorized distributor of **EYKA** 's Pump in East Malaysia. EYKA is a Malaysian company based in Sarawak.

EYKA provide an efficient and Eyka pump, MaxPump series diaphragm pump are using the new design air valve, high efficient, durable, no lubrication required, no dead spot and the head up to 84 meters high. EYKA committed to providing high quality products and services to meet our customer and market needs.

LUBRICANT & SEALANT

OLiVALS®
Online Valve Lubrication & Sealing

KENYALANG has been appointed as an authorized distributor of **OLiVALS** lubricant and sealant of valves in East Malaysia.

OLiVALS products are manufactured in the only National Lubricants and Grease Institute, USA (NLGI) certified grease blending plant in Malaysia, jointly owned by ESSEM. The OLiVALS range of high quality valve cleaners (flush), lubricants and sealants have been proven effective throughout the years. They have been specially formulated to clean, lubricate and seal passing or leaking valves from many years of field experience.

FIRE EXTINGUISHER

KENYALANG is Authorized Distributor and service provider for the relate and trusted Fire Fighting Equipment from LOCAL Manufacturing in Malaysia such as SRI Fire Extinguisher.

We are certificated company attending training courses as required to comply with EFEIS standard which satisfies the requirements of MS Standard to service Fire Extinguishers.

CLEANER

EUROLUBE RIG WASH AND HIGH-PRESSURE CLEANER

Formula F1115

Water based, no flash point, practically nontoxic even to the most sensitive aquatic species. cost effective operations and effective in cleaning hard surfaces and hard to reach areas.

EUROLUBE SOLVENT DEGREASER

FORMULA 1118

Quick Penetration, Excellent Emulsifier, Rapid Rinsing: cleans and dissolves heavy duty grease, oil and soiled deposits on any surfaces effectively.

TUFF RUST, SCALE & CEMENT REMOVER

Formula F5132

Etches, Degreases & Cleans removing rust but also produce a variety of functionality such as metal brightening and penetrates to loosen jammed rusted piping connection due to impurity of harden mud and silicone from grease residue. Get surprise, there's more.

CITRUS RUST CONVERTOR & PRIMER

Formula F5333

Protect metal possessions from getting rusty, as metals tend to rust with constant exposure to the environment.

25 Liters Carboy

200 Liters Drum

1000 Liters IBC

CABLES

1. LOW CABLE VOLTAGE

- 0.6/1kV CU/XLPE/PVC-FR/SWA(AWA)/PVC-FR
- Underground & aboveground cables
- Suitable used for installation system and main power supply.
- It can be installed in cable trunking, cable duct, switchgear and on cable trays and ladder.

2. MEDIUM CABLE VOLTAGE

- 6/10(12)kV CU/XLPE/CTS/PVC/SWA(AWA)/PVC
- Underground and aboveground
- Generally suitable for installation on tray, ducts or direct burial. To avoid mechanical damage, armoured cable can be used

3. INSTRUMENT & CONTROL CABLE

- 500V CU/PE/OSCR/PE/SWA/PVC-FR
- Underground and aboveground
- Generally for indoor control applications and designed for use in intrinsically safe systems. The shielded is for isolation and noise reduction.

4. FIRE RESISTANCE CABLE

- 0.6/1kV CU/MGT/XLPE/LSZH/SWB(TCWB)/LSZH
- Underground & aboveground. Fire resistant cables are often used to maintain circuit integrity of those vital life safety systems such as fire alarm and suppression services.
- The cables are suitable for use in public, commercial and industrial environments where maintaining life, equipment and structures are critical.

EQUIPMENT

Portable Mercury Survey Meter - EMP-3

EMP-3 is the 3rd generation of Field-Portable Mercury Survey Meter that is designed for on-site measurement of gaseous elemental mercury (GEM) in workplace ambient air for occupational safety, health, and hygiene.

Multi-Gas Detector - Drager X-act® 7000

The innovative Drager X-act® 7000 analysis system consists of Drager MicroTubes and an opto-electronic analysis device that lets you precisely measure gases in the low ppb range. It gives you precise results right on site, replacing slow, expensive lab analyses. It's extremely easy to use: insert the Drager MicroTubes, start measuring, then read out the test result.

EQUIPMENT

Drager X-pid® 9000 / 9500

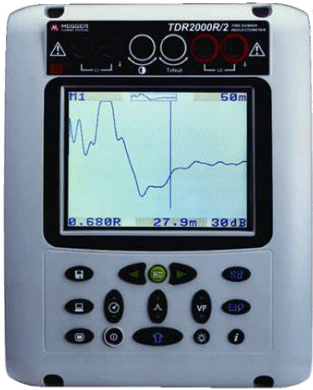

The selective PID gas measurement device is ideal for users who frequently test for hazardous toxic substances. Benzene, butadiene and other volatile organic compounds (VOCs) are carcinogenic even in the smallest concentrations. Selective measurement is necessary because other gases and vapours are often also present. Our X-pid gas measurement device allows for short test times and laboratory-quality results.

Drager Alcotest®5000 Maximum control in minimum time

Excessive alcohol consumption impairs an employee not only physically and mentally, but also socially. At the same time, the risk of accidents rises at an alarming rate -for the intoxicated person and for those around him or her. It is in a company's best interest to take measures in advance to reduce preventable downtime, sick leave and damage to their reputation. *

EQUIPMENT

Megger TDR2000/2RM Dual Channel TDR Cable Fault Locator

Time Domain Reflectometer cable fault locator. User selectable ranges from 0 to 50m up to 20km, minimum resolution 0.1m. Dual cursor measurement. Internal memory for 15 traces. Megger "Tracemaster" software supplied. RS232 interface for PC communications. High resolution LCD display. Battery powered. Dust and shower proof to IP54.

Megger TDR2000-3P Dual Channel TDR Cable Fault Locator

The Megger TDR2000-3P is a dual channel TDR Cable Fault Locator. This instrument has user selectable ranges from 0 to 50 m up to 20 km and a minimum resolution of 0.1 m. Performs dual cursor measurement. Internal memory for 15 traces. Megger "Tracemaster" software supplied. High resolution LCD display. Battery powered. Dust and shower proof to IP54. This system can operate on live cables.

EQUIPMENT

C.Scope DXL4 and SGV4 Cable and Pipe Locator

Cable and pipe avoidance and location tool with depth measurement. Simultaneous dual 33+131 kHz frequency will assist in the detection of smaller buried pipes and cables such as telecoms, cast iron and street lighting spurs. 4 available power levels up to 1 watt and depth detection approximately 3 meters (depending on soil type and operating mode). Four detection modes; Power, Radio, Generator and Allscan. Features a Dynamic Swing Sensor to aid in cable and pipe location.

Fluke 2042 Cable Locator

Ideal for tracing cables in walls and underground, locating fuses/breakers on final circuits and locating interruptions and short-circuits in cables and electrical floor heating systems. Can be used for tracing metallic water and heating pipes. Supplied as a kit comprising a transmitter and receiver in a carry case. Voltage measurement range 12 to 400 volts. Frequency range 0 to 60Hz. Transmitter output signal 125kHz. Transmitter voltage 0 to 400V ac/dc. Depth location 0 to 2.5m. Receiver voltage detection range 0 to 0.4m. The receiver incorporates a torch for working in dimly lit locations.

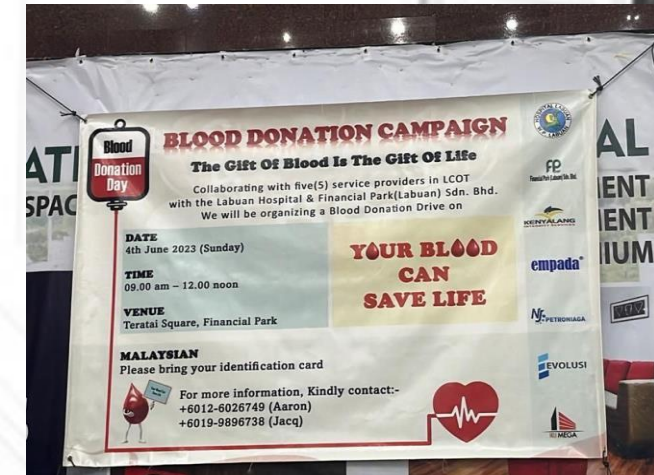

KENYALANG will continuously promote safety culture and enhance HSE management system to ensure that our employees are proactive in dealing with HSE matters. We will also support safety initiatives driven by our clients to help improving the safety and health of our employees and theirs.

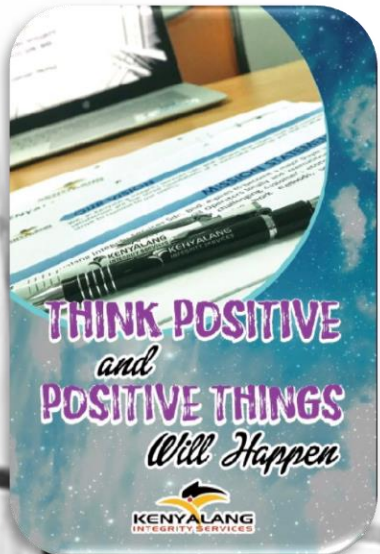

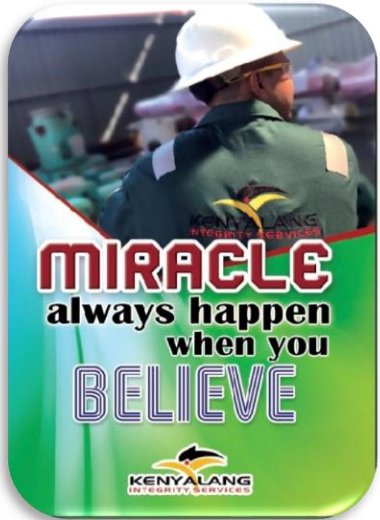

Kenyalang is dedicated to ensuring safety in the workplace through their innovative approach, which encompasses both PTW Applicant Empowerment and Stop Work Intervention, fostering a culture where individuals are empowered to actively engage in the permit-to-work process while also having the authority to halt operations if safety concerns arise, ultimately promoting a secure and proactive work environment.

KENYALANG always active in the CSR program. CSR includes bringing value to the community and generating a positive impact. Corporate Social Responsibility (CSR) is the idea that a company should play a positive role in the community and consider the environmental and social impact of business decisions.

KENYALANG's Corporate Social Responsibility (CSR) initiative recognizes the importance of reaching out and supporting the community where we operate.

“Reaching Out To Be Your Best Service Provider”
